Mr. Lawrence Houston

Washington, D.C. 20016

STAT

Dear Mr. Houston:

At long last, the much delayed transcript of our conversation some months ago on the CIA Act of 1949 and the legislative liaison functions of OGC.

As you know, this project has been shelved, at least for the time being. Even so, in going over this transcript I was struck by the wealth of information it contains which will be invaluable if we return to the project at a later time. A good portion of this is material which will not show up in the written records which have been retained by the Agency. As a consequence, your continued willingness to share your recollections with us is all the more appreciated.

As you have done in the past, I would appreciate any changes which you feel would clarify the meaning of the transcript. There are a few places where we were unable to make out one or several words; perhaps you will be able to fill these in as well.

Also as before, we have not classified this document, but as a matter of policy will keep it closely held.

I am enclosing an envelope to make it easy for you to return the transcript once you have gone over it.

Again, please be assured of our gratitude for all your help.

With best wishes,

*\$/*
